CHAPTER XXXVI

Roster of Inducted Men from Utah

After the act was passed for the selective draft every effort was made to divert prospective volunteers to registration offices, not only to obviate confusion but to standardize requirements, an extremely difficult undertaking owing to the natural diversity of opinions among examining physicians, but mainly because of the temperamental variations in judgments of registrants under every degree of influence. Although some eligibles did not hesitate to show reluctance about entering military service, the spontaneous response and the immense registration made it seem like an uprising of volunteers.

In the following list of inducted men from Utah are 732 wounded, all of whom were in action. The extent of disability is indicated as follows: "SII" for slightly, "Sev" for severely, "DU" for degree unknown. In the roster of men not wounded, those who had overseas assignments, as shown in the records on file in the office of the Adjutant General, are indicated by stars against their names.
